

Welcome to Run4ACure! We are a team, Fly4ACure, working to fundraise for the Leukemia & Lymphoma Society (LLS) in hopes to raise awareness and cures for blood cancer patients. In the seven week period it is our goal to raise \$50,000 for LLS. During February 14th - February 20th we are encouraging members of our community to run/bike/walk/skip during this seven day period to raise much needed funds for cancer patients and families.

Will you join us in this journey to find cures?

Did you know that someone unwillingly joins the fight against blood cancer once every 3 minutes?

Leukemia is the #1 diagnosed form of childhood cancer.

80% of childhood cancer survivors end up with some sort of chronic health conditions often due to their treatment.

The Leukemia & Lymphoma Society (LLS) has launched the Children's Initiative, focused on creating safer and more individualized treatments for children battling blood cancers that will let them move on to survive and lead happy, healthy lives after winning the fight.
